BROCKTON HORROR

**Killed, Missing and Injured
Number 151.**
FINANCIAL LOSS IS \$250,000

Tragedy of the Shoe Factory Explosion in Massachusetts Grows With Each Hour.

Brockton, Mass., March 21.—The tragedy of the Brockton horror grows with each hour and early this morning the death scroll showed 53 known dead and a list of 96 missing employees of the ill fated shoe factory of R. B. Grover & Co., which was blown up and burned yesterday.

The official list of dead showed ten bodies unidentified. The search of the smoldering ruins was resumed this morning. Mayor Keith, who is in general charge of the search, believed that many bodies have been burned to ashes. Many of the injured are in the hospitals and will recover.

Of the 400 employees but 251 are reported as getting out of the building. The majority of these sustained injuries. The moving of the heavy twisted girders, guarded by the force of the explosion into the machinery, made the work of removing the debris slow. The body of Engineer Rockwell was found in the engine room beside the chair in which he had been sitting. Eleven unidentified bodies have thus far been recovered.

At noon today three more bodies were identified. So far 55 bodies have been recovered and 14 bodies identified, 43 employees are missing, 259 employees are accounted for and 53 are seriously injured. The financial loss is \$250,000.

Brockton, Mass., March 21.—This city is in mourning for at least three scores of her citizens whose lives were blotted out by the explosion of a boiler in the large shoe manufacturing establishment in the Campello district conducted by the R. B. Grover company. The explosion was immediately followed by a flash of flame, which consumed the factory, a long, four-story structure, as if it were a house of cards, and incinerated an unknown number of men and women who were unable to extricate themselves from a mass of tangled wreckage formed by the terrific upheaval in the boiler room. More than half a hundred of the employees in the building were maimed, burned or bruised by the time they reached safe ground. Some had jumped from the roof, some from windows and others had been injured in the mad rush to escape from the doomed factory, which from all parts emitted the intense, awful heat of an inferno, driving back the band of heroic rescuers who in a few brief moments had performed a gallant service.

The fire extended from the factory to seven other buildings in the vicinity and destroyed them. One of these buildings was a three-story wooden block owned by Charles F. Dahlborg, the others being cottages of small value, and a blacksmith shop. Two wooden dwellings near the engine room were practically demolished by the flying boiler, but none of the occupants was seriously injured. The total financial loss is estimated at \$250,000, \$200,000 of which falls on the R. B. Grover company. The monetary losses are nearly offset by insurance.

It may never be known just how many persons perished in the wreckage. No one knows exactly how many persons were in the factory. The number has been estimated at 400, but Treasurer Charles O. Emerson said he doubted whether there were so many at work. Two hundred and fifty survivors have been accounted for and the remains of 50 bodies have been recovered from the ruins. Fragments of

ASSASSIN A BOY

Russian Governor is Shot in Finnish Province
SAYS HE IS A REVOLUTIONIST

Victim Had Been Energetic in Russification of Finland—People Wanted Him Removed.

St. Petersburg, March 21.—A dispatch from Viborg, Finland, says: Governor Masoreddoff was shot and seriously wounded by a boy of 15 named Matti Hjalmar Reinikka, who immediately afterward was arrested. The youth admits he is a revolutionist. He hails from Kurikka, Paris, and northwestern Finland, but recently has been living in Stockholm to avoid arrest on account of his known revolutionary ideas. He returned four days ago to Finland by way of Tornea, and spent three days in Viborg, but declines to reveal his stopping place. Governor Masoreddoff has been most energetic in the Russification of Finland, and memorials have been sent to the estates petitioning for his removal on account of his alleged illegal methods, and the general conditions in his province, which were pronounced to be intolerable to Finns. Reinikka gained access to the governor's cabinet and fired a shot from the threshold. Then advancing he fired twice more, after which, jumping behind an under the governor's writing table, with his pistol he held up the clerks who were rushing in and managed to reach the street. Secretary Markoff, who followed him, summoned assistance, and the would-be assassin was captured and lodged in prison. The young man, who had lost one of his arms recently in a railway accident, when asked if his name was Reinikka, replied: "The police of Helsingfors know me, my motive, and the governor's record." The crime was committed with an automatic pistol of the same type as that with which Hohen-thal assassinated Soininen, the procurator general of Finland, on Feb. 6.

ARRANGEMENT

Arrived at Between Italy, England and the Mad Mullah, Who is Under Italian Protection.

London, March 21.—In pursuance of the arrangement arrived at in December last between Great Britain and Italy to offer the Mad Mullah an assignment of a settled sphere in Somaliland, together with graziers in certain parts of British and Italian territory, for which the Mullah binds himself to keep the peace, an agreement has been concluded at Italag, a village in Italian territory, between the Mullah and the Italian diplomatic agent, Signor P. Stalozza. By its terms the Mullah undertakes to observe peace towards both Great Britain and Italy. The Mullah places himself under Italian protection. The agreement gives Italy the right to appoint a resident in the territory assigned to the Mullah, in which free commerce will also be guaranteed, with the exception of traffic in arms, and slaves were prohibited.

New York, March 21.—It is reported that Russell Sage, who has been ill for some time, had suffered a relapse and was in a serious condition.

CASTRO

Must Submit to Arbitration Or Serious Trouble May Follow.

Washington, March 21.—It is learned today that about ten days ago Minister Bowen was instructed by the government to demand formally of President Castro of Venezuela that the question at issue between his country and the United States be submitted to arbitration. Instructions were that in case of refusal he was to inform Castro that the United States would then pursue its own course. The department not yet being informed of Castro's answer, cannot make a definite statement as to what action the government will take. Should Castro refuse to arbitrate, however, it is quite likely there would be preliminary seizure by the United States of a custom port on the Venezuela coast, the later action to be determined by the President and cabinet.

BANK MESSENGER

Held Up in California and Robbed of Ten Thousand Dollars—Job Done by Two Masked Men.

Berkeley, Cal., March 21.—J. E. Daly, an Oakland liveryman, who was acting as a messenger for the Central Bank of Oakland, was held up and robbed of \$10,000 while on his way to the Standard oil refinery at Point Richmond. There were two highwaymen, one of whom was tall and the other short and stout. Both carried revolvers, but only the taller of the men wore a mask. The short man had a heavy black beard. The robbery took place at a point on the roadway between Stege and Point Richmond. The highwaymen jumped out of a clump of brush at the side of the road and at once covered Daly and former Deputy Sheriff Al Roach, who was riding with him. At the point of revolvers Daly and Roach were compelled to jump from the buggy and give up the sack of gold. Then the robbers tied them to a fence and placed guns in their mouths. Daly and Roach freed themselves after much difficulty, and proceeded to Stege station, on the Southern Pacific, about half a mile away.

SAILED FOR CUBA

Secretary of Navy Morton, Speaker Cannon, Senator Hale and Others Off for the South.

Charleston, S. C., March 21.—Secretary of the Navy Morton and party, including Speaker Cannon, Senator Hale and Representative Meyer of Louisiana, sailed from Charleston for Guantanamo, Cuba, where they will inspect the naval station there and observe the maneuvers of the North Atlantic fleet. The secretary and his party were met on their arrival from Washington by Mayor Rhett, a committee of citizens and by Captain Berry, commandant of the naval station at Charleston, and were driven to the dock, where the dispatch boat Dolphin awaited them. They went on board immediately and the vessel shortly afterward sailed for the south.

RUSSIAN RETREAT

Latest Dispatches from Manchuria Indicate That Retreat is Conducted Uneventfully by Army.

St. Petersburg, March 21.—The latest dispatches from Manchuria indicate that the retreat of the Russian army is being conducted uneventfully. The last few days were unmarked by any fighting of a serious nature. Both the Russians and the Japanese at this stage are probably considering that marching is more important than fighting. The Russians, however, are neglecting no precautions to impede pursuit and hamper the construction of permanent Japanese line of supply. The appointment of General Linévitch as the new commander enjoying the affection and confidence of the troops almost in the same measure as General Kuropatkin. Both are fighters and not carpet knights.

Discovered Buried Guns.

Tokyo, March 21.—The following official announcement has been made: "Our detachment entered and occupied Kaiyuan Sunday morning at 4 o'clock. On the same day at 10 30 o'clock the enemy's cavalry, about 60 strong, with three companies of infantry, attempted a counter-attack, but was completely repulsed. Toward the northeast the bridges on the main road south of Kaiyuan have been burned by the enemy. The railway bridges have been partly destroyed. The number of guns captured near Mukden is increasing, owing to discoveries of those buried by the enemy before retreating."

British Steamer Seized.

Tokyo, March 21.—The British steamer Harborton, carrying coal to Vladivostok, was seized Saturday by the Japanese.

Hargis-Callahan Hearing.

Lexington, Ky., March 21.—A sensation was created in the hearing on an application for bail for James, Alex and Elbert Hargis and Ed Callahan when Mose Feltner testified that, prior to the death of Cockrell, Alex and James Hargis, Callahan and Feltner had in Hargis' store discussed whether Marcum or Cockrell should be killed first. Shortly afterwards, he said, Cockrell was killed. He said he was at the time acting in bad faith with the Hargises, and had told Marcum and

RIVERS RISING

Flood Warning is Issued by Weather Bureau.

At Marietta, Ohio Has Passed the 31 Foot Stage and is Going Still Higher.

Pittsburg, March 21.—"Preparations should immediately be made for possibly the greatest flood in years."

GREAT DAMAGE BEING DONE

This is the warning issued today from the local weather bureau office. The Monongahela river shows unmistakable signs of reaching a very high stage. The river is rising from end to end and its tributaries are also swelling rapidly.

Wheeling, W. Va., March 21.—The stage of the Ohio at 10 o'clock this morning was 39 feet and the river was rising about four inches an hour. The prospects here are for 45 feet. The damage to property already has been immense. Within 50 miles of here 10,000 homes have been inundated.

WITH BONDHOLDERS

President Castro's Fiscal Agent Signs a Contract—Pledges Receipts of Minor Ports.

Washington, March 21.—Carlos B. Figuerado, consul general of Venezuela at New York, arrived here in the company of Dr. Paul, the special diplomatic envoy of Venezuela to the United States. Dr. Paul will remain here several days to watch developments in the trouble over the French Cable company's concession from Venezuela. Mr. Figuerado said that the cablegram from Minister Bowen saying that suit had been instituted at this time by Venezuela to cancel the cable company's concession and for the seizure of its property was incorrect, as the suit to annul the concession was brought in the Venezuelan courts in 1903. The basis of the suit, he said, were allegations that the cable company had not given such a cable service as was stipulated should be given when the concession was granted. The cable line, it was stated by Mr. Figuerado, had not been seized and was un-molested.

The state department may not repeat the history of the first settlement of the powers with Venezuela, as the results have been far from satisfactory, neither the allied powers nor Venezuela being pleased at the outcome. The obligations incurred under the award of The Hague tribunal never have been met. It is therefore the present intention of the government here not to interfere in any dispute of a foreign nation with Venezuela provided the Monroe doctrine is not infringed. This determination does not estop action on our part in the interests of American concessions and properties in Venezuela.

Venezuela Pledges Customs.

Paris, March 21.—General Antonio Belutini, President Castro's fiscal agent at Antwerp, has been authorized to sign a contract with the German and British holders of Venezuelan bonds pledging 30 per cent of the customs receipts of Guantana Le Vela, Cumana, Ciudad Bolivar, Porto Colon and Carupano, to pay \$26,000,000, bearing interest at the rate of 4 per cent per annum, until the creditor nations are paid from 30 per cent of the customs of La Guayra and Porto Cabello, after which those two ports shall pay 25 per cent of their total receipts to Great Britain and Germany. It is estimated that Germany and Great Britain will get a preponderating influence over Venezuela for 50 years and continued their alliance. It is reported that President Castro receives a gift of \$2,600,000 in consideration of this arrangement.

THE JAPANESE SOLDIER'S MORAL PRECEPTS.

Every Japanese soldier recites every morning the following precepts contained in an edict of the Emperor, dated January 4, 1882, and it is to the constant discipline contained in them that Baron Kaneko attributes the valor of his countrymen and their success against the Russians:

1. To be sincere and loyal and guard against untruthfulness.
2. To respect superiors, keep true to comrades and guard against lawlessness and insolence.
3. To obey the command of superiors, irrespective of its nature, and never to resist or disregard it.
4. To prize bravery and courage and be diligent in the performance of duties, and guard against cowardice and timidity.
5. To boast not of brutal courage, and neither quarrel with nor insult others, which will incite general hatred.
6. To cultivate virtue and practice frugality and guard against extravagance and effeminacy.
7. To prize reputation and honor and guard against vulgarity and greed.

THORNVILLE MAN

CAUSES THE ARREST OF AGENT OF CLEVELAND FIRM.

Charge Against Barr is Selling Adulterated Turpentine—Hearing is Set for Friday, March 24.

Thornville, O., March 21.—W. S. Barr, agent for a Cleveland paint and varnish firm, of Columbus, was arrested by Detectives Beard and Owens on a warrant, charging him with selling adulterated turpentine and linseed oil to H. O. Mecking, druggist at Thornville. When arraigned the case was continued until Friday, as Mr. Barr pleaded not guilty. Mayor Lawyer will hear the case. It is alleged that the stuff sold was about 50 per cent adulteration.

Riot at Christening. Denison, O., March 21.—In a fight following a christening at the home of Charles Anthony here, 20 shots were exchanged and knives were used freely. A. Nicholas was shot through the body and his condition is serious. G. Godicone was badly carved with a knife. The parties are all Italians.

Mrs. Chadwick Talks. Cleveland, O., March 21.—Mrs. Cagie Chadwick made a statement in which she denied she ever had asserted that Andrew Carnegie was her father. Discussing her trial, she said she thought Prosecutor Sullivan and Marshal Chandler had been unfair, and added: "I am not a party to any conspiracy, and if any such existed it was without my knowledge. I negotiated a great many loans with banks other than the Citizens' bank of Oberlin, the notes being placed to my credit, or I was given New York drafts or certified checks in the same manner as was followed in the Oberlin transaction. I did business with the Oberlin bank just exactly as I did business with the Cleveland bank."

Anticommunist a Break. Youngstown, O., March 21.—A general meeting of the strikers at the steel hoop mills of the Carnegie Steel company was held here to consider the question of declaring off the strike that has been on since last July. The gathering was addressed by President Theodore J. Shaffer, Secretary-Manager John Williams and Ben L. Davis, editor of the Amalgamated Journal. The strikers resolved to take no action declaring the strike off until the meeting of the Amalgamated Association in May. A general break in the ranks of the strikers is said to be probable. However, the men have been idle all summer and winter and have undergone great hardship.

Ends the Investigation. Cleveland, O., March 21.—At the meeting of the city council Solicitor Baker said that the decision of the circuit court on Saturday that the Cleveland Electric Illuminating company need not produce its books in the trial to prove charges of bribery made against members of the city council practically puts an end to the investigation into the charges. The books of the illuminating company were wanted to show that the company had paid money directly to two Democratic councilmen, and had contributed to the campaign fund of all the Republican members of the city council.

Miss Losh Dies Suddenly. Danville, O., March 21.—The funeral of Miss Mary Losh, who resided with her brother, Mr. John Losh near here, took place Monday. Miss Losh's death was very sudden. She had been in her usual good health, when an attack of heart trouble seized her, and she died a few minutes later.

ANTI-TRUST LAW

HELD VALID IN DELAWARE CASE BY SUPREME COURT.

Guessing Contests on Elections are Also Held to be a Violation of the State Law.

Columbus, O., March 21.—The criminal penalty clause of the Valentine Stewart anti-trust law is valid. The Supreme court so held this morning, reversing the Delaware county circuit court, which held this clause unconstitutional and the Supreme court affirmed the fine imposed by the Common Pleas court upon Pearly Gage, neil of the Delaware Coal Exchange.

The decision is a great victory for the anti-trust sentiment. Without the criminal penalty clause in the state anti-trust law would have been practically useless. With the clause out, the only remedy would have been for the anti-trust person or concern harmed by operations of the trust to sue the combine for civil damages. With the criminal penalty by the Supreme court, prosecuting attorneys of the state may have officers of the combine indicted, fined and imprisoned. This, more than money damages, is what the combine magnate fears. The penalty clause provides for a fine of \$500 and six months imprisonment for each violation, and each day of the trust's existence constitutes a separate violation. In the case decided the Delaware coal dealers, or certain of them, combined and operated through an exchange. Gage was indicted and fined as head of the exchange.

No More Newspaper Contests.

Columbus, O., March 21.—Guessing contests on elections as conducted by newspapers are lotteries and hence violations of law, held the Supreme court today.

Prison Unfit to Live In.

Columbus, March 21.—"The only way to remedy conditions in the Ohio penitentiary," said Dr. Knopf, the distinguished expert on tuberculosis, "is to have a new prison; but in the meantime there should be some improvements made that would at least to some extent relieve the situation. By enlarging the windows that open from the cell blocks, and thereby letting in more light, some improvement would be brought about. The prison, which is worse than Sing Sing, which I thought the worst on earth, is unfit for human beings to live in."

In Receivers' Hands.

Columbus, March 21.—Receivers were named yesterday for the Urbana, Bellefontaine and Northern electric railroad. The receivers are the same as for the other Appleyard lines.

Mr. Franklin at Coshocton.

For An Impaired Appetite. Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will invigorate the stomach, strengthen the digestion and give you an appetite like a wolf. These Tablets also act as a gentle laxative. For sale by all druggists.

The smallest full grown elephant in Europe is on exhibition in London. He is 33 inches in height and weighs 230 pounds. When he was taken to a photograph gallery the other day for his picture, he was taken in a cab. A luncheon of buns and brandy and water was provided for him.

"Of course you know how many minutes there are in an hour," said a lawyer to a witness in an English court. "Well," said the witness, after pondering for a while, "let's hear your version of it."

HEBRON CASE IN PROBATE COURT

BIG CROWD PRESENT TO HEAR EVIDENCE IN THE LOCAL OPTION CONTEST.

Township Ditch Case in Common Pleas—Marriage Licenses—Business Done by Commissioners.

The case of H. E. Elwinger against the Village of Hebron, to contest the result of the local election held in Hebron on the 19th of January, which resulted in the wetts winning by one vote, the wetts having cast 80 ballots to the drys 79 ballots, was heard before Probate Judge W. A. Irvine on Tuesday. The attorneys in the case are A. A. Stasel and F. E. Slabaugh, who represent the Village of Hebron, and Attorney J. R. Fitzgibbon, who is looking after the interest of the petitioner.

When the case was called Tuesday morning, there was a big crowd of interested spectators in the court room. A number of witnesses were examined Tuesday morning, among them being Messrs. T. M. White, Walter Andrews, Daniel C. Crawshaw and Park Lyons, members of the election board.

The principal feature of the morning session was the examination of the above named witnesses in regard to Joseph Honness, who, it was alleged, was an unqualified elector. Honness testified in his own behalf. He explained how long he had been in Hebron previous to the election, and told of his whereabouts after the election, up to the present time. The case is one of great interest and the outcome is anxiously awaited.

Township Ditch Case.

Conde S. Davidson has commenced suit in the Common Pleas court against Jacob Higgins and Fred Matthews. Plaintiff says that in 1899 the joint board of trustees of Hillier township, Knox county, and Hartford, Licking county, established and constructed a joint water ditch, commencing on the farm of the plaintiff in Hillier township, Knox county, known as the Davidson ditch; that the plaintiff was and still is the owner of 80 acres of land lying in Hillier township, Knox county, across which the ditch runs, and which lands were assessed for the location and construction of the ditch, and the plaintiff required to construct 2500 feet of the ditch. That the ditch was, at said time, and still is, necessary to drain the lands of the plaintiff. That on the 1st of October, 1904, the defendant, Jacob Higgins, contracted with the defendant to sell and convey 90 acres of land to Matthews and April 1, 1905. That the defendant threatens to, and will, if not restrained by order of the court, divert the large pond and swamp on the 90 acre tract of land from their natural water course and carry the water through a private tile ditch, without authority from the joint board of trustees, into the Davidson ditch and thereby cause more water to flow into the ditch than the ditch can carry off, and will obstruct the flow of water in the ditch and cause the water in the ditch to back up on plaintiff's land and prevent the flow from the plaintiff's land from flowing into the ditch and plaintiff's land from being drained by the ditch. Plaintiff says that if defendants are permitted to do this he will suffer great and irreparable injury, for which he has no adequate remedy at law. He therefore prays for a restraining order from the court, restraining the defendant from carrying the waters through the private drain into the Davidson ditch and from diverting the waters from their natural water course into the Davidson ditch, and that on final hearing said restraining order be made perpetual and for all further needed relief. A temporary injunction was issued by Probate Judge Irvine, in the absence of Judge Seward. S. Leamon, W. A. Bowers and J. R. Fitzgibbon, attorneys.

County Commissioners' Work.

At the meeting of the County Commissioners held on Monday the matter of the petition of T. M. Smith and others for the alteration of a county road in Monroe township, by mutual consent, was postponed to March 27, for final hearing.

The County Commissioners have awarded the contract for furnishing three Yale jail locks and six Duplex jail locks to George Lane for \$28.50.

Action on the Lingafelter costs was postponed Monday afternoon by the Commissioners.

Two Injunction Cases.

In the case of Howard R. Heldenbrand and Edith Heldenbrand vs. John Lippincott, the plaintiffs ask for an injunction restraining the defendant from stationing his backs in front of his property between his hotel and the B. & O. depot platform, or from obstructing the crossings between the depot platform and the hotel, and from allowing the drivers of the backs from standing upon the crossing or passageways in front of the hotel entrance so as to obstruct the same, or from asking, soliciting or engaging any person to take passage while on the crossing or from interfering with the plaintiffs in the carrying on of the hotel business, and that on final hearing the injunction be made perpetual. A temporary injunction was issued by W. A. Irvine.

Are You Engaged?

Engaged people should remember that after marriage many quarrels can be avoided, by keeping their directions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Hall's drug store, sells and guarantees them, at 50c bottle.

Bill of Exceptions.

Notice has been served upon Flory & Flory of the filing in the Common Pleas court by the P. C. C. & St. L. Ry. Co., of a bill of exceptions in the case of Michael Schonberg against that company. Schonberg sued to recover damages growing out of a shipment of rags, which had been sold by the railroad company for demurrage charges, a dispute having arisen as to their payment. Schonberg won the case but the railroad still thinks it is right, and goes to the Circuit court, asking that court to reverse and hold for naught Schonberg's judgment.

MISSING MAN IS FOUND TUESDAY
ISAAC GREEN IS LOCATED BY OFFICER PAT CARROLL ON TUESDAY.
Was Lying in a Room at Fawcett's Saloon—Police Department Sends Notice to Relatives.
Isaac Green, the 53 year old man who worries his friends and relatives by leaving his home and remaining away for weeks at a time, was found by Officer Patrick Carroll Tuesday morning in a room over the Fawcett saloon on West Main street. A rumor was current early in the day that he had met with foul play. Green was in no condition to be surprised that his absence had caused any uneasiness. He was found lying in a room that was in any but a sanitary condition and was entirely oblivious to his surroundings. The police have notified his relatives and he will no doubt be removed to his home at once.

What Ohio Democrats Should Do.

The Columbus Citizens sums it all up when it says that there is but one important thing for Democrats and all other good citizens to do in the state and local campaigns of 1905, and that is not to nominate any man for any office unless he is honest, capable and industrious.

If the Democrats will do this in the selection of their state ticket and in the selection of their county and local tickets, they would carry Ohio and a majority of the counties in spite of bossism and the corrupting power of graft. We appeal to the Democrats to embrace the opportunity that offers.

We are broadminded enough to also appeal to the Republicans to do the same thing in making up their tickets. But the bosses have already forestalled such action by parceling out the spoils in advance. A considerable number of honest and trustworthy Republicans will be nominated of course, but there can be no clean sweep of the bad material. The bosses' power will never be broken in Ohio within the lines of that party. The rescue of the people must be effected by outside aid.

The Ohio Democracy is in an exceptional position. It has no bosses to obey and is under no obligations to unworthy men. The one sole and burning issue in Ohio today is to put an end to the grafting and misuse of public moneys, from the State House down to the village and township treasuries, and to undo the bad work of the recent Republican legislatures.

If throughout the state the Democrats will put in nomination their best men—men whom the people know are honest and capable—for all the positions, the Buckeye state will be treated to a happy surprise in November.

Ex-Congressman Cassingham.

(Holmes Co. Farmer.)
Hon. John W. Cassingham returned home a few days ago at the expiration of his congressional term, having served four years in the lower house as the representative of this district. He has clearly demonstrated that he is a man of ability and has served his constituency well and faithfully. During the time he was in Congress he zealously looked after the welfare of the district and his entire constituency, irrespective of party were the beneficiaries of his good work. He was attentive to business and on every public question his vote was recorded on the right side. His business ability was demonstrated at the beginning and he was honored by being made a member of some of the most important committees. He retires from office with the best wishes of the people of the entire district.

Beef Trust Profits.

(Washington Post.)

"I am engaged in the killing of beef cattle myself in a small way, and so when I read the recent Government report on the Beef Trust I didn't know whether to laugh or cry," said Mr. J. E. Minor of Nebraska, at the Raleigh.

"This report speaks of average profit per head of cattle handled by the combine as being 99 cents. Here's richness for you. But why not have added the extra cent? It would not have sounded quite so much like a bargain-counter mark-down. There

isn't a small local dealer in the land who buys steers for dressing and selling to retailers that will not admit, if he is honest, that his profits on each carcass will amount to from \$5 to \$8, and oftentimes more. It will do this even in my section of the country, where we make nothing out of the hair, horns, hoofs and other byproducts that the big Chicago fellows make balance the expense of handling the cattle.

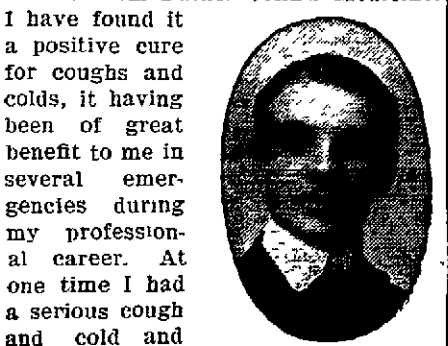

"The idea of 99 cents per head as an average profit to the combine is so supremely preposterous that it seems strange it could be seriously promulgated as a document fathered by any department of this Government. Among Western producers of cattle it will awaken lively indignation. If Washington can't give us more reliable statistics than this it would be better not to furnish any."

The Ohio State Journal's Washington staff correspondent writes to that paper a lengthy dispatch disclosing the fact that President Roosevelt favors James R. Garfield as his successor. Furthermore, that Garfield is so close to Roosevelt in every way that he is at the White House more and sees the President more frequently than any cabinet minister. In view of the fact that Garfield recently whitewashed the notorious beef trust in such a labored manner in his investigation of that concern, it is rather hard to reconcile this peculiar friendship for him on the part of Mr. Roosevelt if the latter's professions of opposition to trusts have any sincerity.

A SINGER'S GRATITUDE

Harry Bewley, Well Known Singer, Tells How Father John's Medicine Cured His Cough and Cold and Prevented Pneumonia.

"It gives me pleasure to contribute my testimony as to the benefits I have derived from Father John's Medicine. I have found it a positive cure for coughs and colds, it having been of great benefit to me in several emergencies during my professional career. At one time I had a serious cough and cold and pneumonia was threatened. By faithfully taking Father John's Medicine, pneumonia was prevented. The medicine also built up my strength, increased my weight, and left my voice clearer and stronger than ever. I write these lines in a spirit of gratitude toward Father John's Medicine and with the hope that others may know of this reliable remedy. (Signed) Harry Bewley, singer of original parodies of popular songs with the Corse Payton Stock Company."

MORTGAGES.

A lot of you readers have mortgages on your homes. Seems like it's about all you can do to pay the interest on it. If you, a big, strong man, can't raise that mortgage, will you tell us how your widow is going to do it? Raising your children will keep her fully entertained, and if you don't provide the means of raising the mortgage, the sheriff will raise the roof from the heads of your dependent ones. This isn't sentiment—it's a brutal fact. A policy in the Equitable Life of New York will raise both the mortgage and the children, and it costs very little, too. You don't have to die to win; if you live to an old age, the cash value of the policy, which will be a large sum, may be drawn by you and used for your own support.

CITY TO BE BETTER LIGHTED.

Council Passes Ordinance to Issue Bonds for Improvement of Light Plant--Hospital Question Considered New Addition Accepted by the City.

A small gist of routine business was quickly disposed of at Monday night's meeting of the city council, the most important matter up for consideration being the City Hospital question which is again being agitated, this time, evidently in earnest. The council's proceedings regarding the matter are chronicled in another column.

Councilman Beadle of East Newark, introduced two new ordinances. One is for the improvement of Gay street between Main street and the Pennsylvania tracks by laying a 15 inch sanitary sewer. The second provided for the building of a 24 inch tile sewer on Oakwood avenue from East Main to Maiden street. Both ordinances were up for their first reading.

Mr. Carlie wants Woods avenue paved from Granville street to the north line of lot No. 3234. An ordinance to this effect was introduced and read for the first time. City Auditor Maurath certified that notices of the improvement of Woods avenue by paving and of the Gay street and Oakwood avenue sewers have been served on the property owners and properly published in accordance with the law.

Mrs. C. A. Palmer asks permission to tap the sewer on North Fourth street. The matter was referred to the committee on public service. Mr. Miller's ordinance which provides a clerk for the sinking fund trustees was read for the first time.

Regarding the proposed issuance of municipal bonds in the sum of \$15,000 for the improvement of the municipal electric light plant, Councilman Rees R. Jones addressed the members of the council, pointing out to them where it was important that this action be taken. Mr. Wm. Linke of the public service board, was present and made a few remarks to the council on the subject. Councilman Jones secured a suspension of the rules and the ordinance, which was read at a previous meeting, was read for the second and third time and passed. This ordinance provides for better machinery at the light plant, which means that many sections of the city will soon be better lighted than at present.

CITY HOSPITAL

Mr. Moser Secures Passage of Resolution to Find Location for Building. Mr. Donovan's Offer.

Judging from the action taken by the city council Monday evening, it will not be many moons before Newark can boast of a "really" city hospital. As was predicted in the Advocate Saturday, Mayor A. J. Crilly presented Mr. T. O. Donovan's proposition to the city dais and recommended that the matter be referred to a proper committee. The report of the mayor was received and filed.

The Newark division of the Retail Clerks' Association presented a petition signed by thirty of their members asking the council to take immediate action on the Hospital question. A number of delegates from the various labor organizations of the city were presented to add their influence in the matter if necessary.

Councilman Jos. R. Moser of the Third ward, introduced a resolution in which he recommends that the council secure a suitable location for a hospital, urging that the committee to which the matter was left be instructed to report at the next meeting.

Mr. Moser secured a suspension of the rules and the resolution was read three times and passed. However,

no committee was instructed regarding the resolution. The sentiment of many interested in the matter seems to look towards the establishment of a hospital which will be under the direct management and control of the city officials and to be built and maintained by funds appropriated by the city for that purpose. Mr. Donovan's proposition is an inviting one, however, and will no doubt be carefully considered before any rash steps are taken in the matter.

As given in this paper last Saturday Mr. Donovan offers to erect a hospital building providing the city furnishes the site. He stipulates that the hospital shall be in charge of the Sisters of the Catholic church.

ORDINANCE

To Accept the Cassingham & Stump West Newark Addition is Passed by the City Council.

Monday evening the City Council passed the ordinance which provides for the admission of the Cassingham & Stump first addition as a part of the city of Newark. This action was taken upon the recommendation of the Board of Public Service which submitted a report, making such a recommendation, to the council. Messrs. Cassingham and Stump have deposited a certified check amounting to \$900, and agree to place the addition in good condition before the middle of July, 1905. The violation of this contract will forfeit to the city the sum covered by the check, \$900.

Mr. Jones, who is interested in the new addition, spoke of the value of time to the owners of the addition and requested that the ordinance be placed upon its second and third reading and final passage. His motion carried and the ordinance was passed.

PAWN BROKERS

Believe They are Paying the City Too Much for Privilege of Doing Business in Newark.

Newark pawn brokers are of the opinion that they are paying excessive licenses for the privilege of conducting their business. Messrs. D. T. Cole and D. H. Keller affixed their signatures to a petition asking council to reconsider the ordinance which fixes the amount of the license. The petition was presented Monday night at the meeting of the council and was received and filed. The ordinance referred to in the petition was passed by the council in the spring of 1904.

THREW STONES

At North Fourth Street Car and is Now Repenting the Deed at the City Prison.

Thomas Woolees, a well known Newark man, is locked up at the city prison charged with throwing stones at a North Fourth street car. The evidence against the prisoner is said to be strong, and as the penalty is a term in the penitentiary, the case against the man is serious.

Conductor J. Bitman is the complaining witness and the Newark & Granville car line is prosecuting the case. It is claimed that Woolees boarded a north bound car at the square and took

a seat inside. The conductor noticed the man spitting on the floor and called his attention to the city ordinance which forbids that practice. He became offensive in his talk to the conductor, it is alleged, and followed the collector of fares to the rear platform, where he continued his abuse.

The conductor put the man off the car which did not cool his anger, and he awaited the return of the car at Maple avenue. It is alleged by the witness that the bricks rained thick and fast and several windows in the car were demolished.

Chief Sheridan and Officer Pat Carroll followed the man to the office of the glass works, where he was placed under arrest.

The case was continued in police court until Wednesday morning at 9 o'clock, to give Woolees an opportunity to get an attorney.

Belmont Willing.

New York, March 21.—August Belmont has consented to meet a committee from the Central Federated union, whose members want to make an appeal to him in the interest of the striking employees of the Interborough company. The men do not want to demand anything, but simply wish to appeal to Mr. Belmont to take back the old men. They do not want new men who know how to run trains discharged. In their request for a meeting the men admit they made a mistake in going on strike.

Calls For Cut In Wages.

Pittsburg, Pa., March 21.—A proposition has been sent out to members of the American Flint Glass Workers' union calling for a reduction of the wage scale for the chimney branch, and a vote is being taken. The amount of the proposed cut is said to be 25 per cent, and is made necessary to enable independent manufacturers to compete with the MacBeth-Evans Glass company. This concern broke away from the union last July, owing to a failure to agree on the limit of output, and a strike was declared.

Rush of Immigrants.

New York, March 21.—Enough immigrants to people a city as large as Chattanooga, Tenn., or Canton, O., are due to arrive in this port on the steamships from European ports this week. For the seven days the number will be 32,863, which is a fair-sized number ordinarily for a month, and far exceeds that of any week in March since the federal government has supervised the landing here.

Are Patent Medicines Frauds?

Many Druggists Asked the Above Question

FRANK D. HALL SAYS "NO."

When asked the above question, Mr. Frank D. Hall contended that nothing that gave satisfactory results could be fraudulent. "Do you believe," said Mr. Hall, "that we could afford to sell you something you don't want or that will not give you satisfaction? Our business depends on pleased customers—in fact any business does. Therefore, we would take an enormous risk did we not fulfill every promise made our customers. We are very careful of what we guarantee, and when we do guarantee an article we must know it pretty well—that it contains and how it is made. I have in mind the Rexall line of remedies, particularly Rexall Mucu-Tone, of which we are selling large quantities at his time of the year. Mucu-Tone is one article that we can recommend over our counter, and know that ninety-eight per cent of its purchasers are going to be benefited and will return to our store pleased customers. Mucu-Tone is a positive cure for internal scrofula or what is commonly called Catarrh. It is without a doubt the peer of all tonics for any who is suffering from a run-down condition can't work, feel constantly tired or suffering from the more plainly described symptoms of Catarrh—such as stopping of the nose, cold in the head or bad cough.

"It must be remembered that Catarrh is not confined to the nose and throat. It usually starts there but it leads more often to serious trouble, particularly the wasting of tissues, as in the case of little Miss Dillon of Albany. Here is a letter from her father:

"My little girl had catarrh so badly that the disease had begun to eat into the cartilage of the nose. Snuffs and instruments failed to do more than give temporary relief. I saw the advertisements of Mucu-Tone, but I could not believe that anything taken in the stomach could cure the sore membranes of the nose. However, I took advantage of your free trial offer and my girl began taking your remedy according to directions. I want to say right here that Mucu-Tone is certainly the greatest medical discovery of the times, and to thank you for the liberal offer that first induced me to give it a trial. Mucu-Tone has cured my daughter's catarrh completely. The discharge has stopped altogether and her breath is as sweet as can be. Again thanking you, Matt. Dillon, 24 N. Swans street, Albany, N. Y."

Frank D. Hall is selling a large trial bottle of Mucu-Tone for fifty cents on the famous Rexall guarantee of your money back if you are not satisfied. He promises that one bottle will put flesh on your bones and bring new vitality to your system.

EAST END CHURCH

Pews for the Remainder of the Year Are Now Being Taken—Many Entries Already Made.

Father Waterson, pastor of the Church of the Blessed Sacrament, in the East End, announced on Sunday that the pews in the church were now ready to be rented for the balance of the year. Since that time he has been quite busy taking entries of the people who are renting pews. The number of pews already rented shows that the people have an interest and pride in the new church, which promises well for the congregation. There are still a number of desirable pews to be rented, however, and the first to come will be the first to be secured.

MR. MONTGOMERY

Wants Licking County Farmers to Take an Interest in Corn Show to be Given Here.

At the last meeting of Newark Grange it was determined to hold a farmers' institute next fall, the principal feature of which will be a corn show and school.

Throughout the corn states much attention is now given to the "breeding" and culture of corn. Through the efforts of the railroads and the agricultural college of Iowa, the corn crop of that state in 1904 was largely increased, adding several million of dollars to Iowa's assets.

There is much good corn land in Licking county. Let our farmers take up this matter of selecting, breeding and improved culture, and next fall bring in their best 10 ears to be scored by an expert.

Any information about the show and school will be gladly answered by O. H. Young, Newark, Ohio, or by the undersigned. Exhibits to be grown in the county.

Milk-Wagon Drivers Strike.
Chicago, March 21.—Delivery of milk to nonunion employees of 24 wholesale clothing firms was stopped by a sympathetic strike of milk-wagon drivers. The strike of the drivers is the outgrowth of a boycott against factories of firms belonging to the National Wholesale Tailors' association. As a result men and women who were hired to supplant the garment workers since the latter's strike began last November, and who have been taking meals in the tailor shops in many cases to avoid running the gauntlet of pickets, are forced to do without milk.

Sugar Plant Shuts Down.
New York, March 20.—Over 3,000 men have been thrown out of employment as the result of the shutting down of the plant of the Havemeyer sugar refinery in Brooklyn. No official explanation is given of the shut-down, but it is said that decreased consumption of sugar growing out of the advance in price was the cause.

The Chicago sleighing season is the longest for years.

FIRST SHIPMENT OF SAFES.

New Industry in West Newark Promises to Grow—Wehrle Company Now Making 600 Stoves Daily is Soon to Make Another Increase in Its Force of Men.

Within a day or two the first shipment of safes from the Wehrle foundry will be made and in the opinion of many this will mark the beginning of an industry that promises much for Newark.

A few months ago the Wehrle company purchased the plant of the Atlas Safe company of Fostoria, Ohio, and moved the machinery to Newark, an arrangement having been made with a Chicago house to take the entire output of the safe factory. A few weeks ago the plant was installed here and the work of manufacturing safes was begun. The output at present is about a dozen safes daily but as the factory is now operated by the Wehrle company bigger things may confidently be expected. When Mr. William W. Wehrle was asked as to the probable output of this new industry Tuesday morning he said he was unable to give an estimate but judging from the tremendous growth of the stove business here under the Wehrle management and the fact that the Chicago house which takes a large part of the Wehrle stoves will sell all the safes built here, it is a safe prediction to say that the output in this department will be multiplied very rapidly.

The Wehrle company is now turning out stoves at the rate of 600 a day and there is a market for all of them. Five cupolas are being operated and within a week the sixth will be started. This means that about 25 more molders will be employed with a corresponding increase in the mounting rooms and all other departments of Newark's great factory. "I see that it has been published. Mr. Wehrle, that you are to try the experiment of using natural gas instead of coke for melting iron and to this end are erecting a new cupola in which gas will be the heating agency," said an Advocate man to the president of the Wehrle Stove company Tuesday.

Before the writer had time to go further Mr. Wehrle said: "That was news to me. I had never contemplated such a thing. We use all our natural gas under the boilers and are not thinking of trying such an experiment."

The Wehrle company's second gas well has a production of about the same amount as well No. 1. The output is being used in the foundry. Whether a third well will be drilled this spring can not be stated at this time.

LIMBURGER

Attracts Sneak Thief to Attorney Charles Miller's Ice Box and the Cheese is Gone.

Attorney Charles Miller has asked the police to locate an impudent sneak thief who ransacked a refrigerator at the Miller home on West Churon street Monday night. Mr. Miller describes the man as having a strong odor of Limburger cheese on his fingers as he swiped a piece of "ripe" cheese from the ice box. The police promise a stiff fine and sentence for the culprit when he is caught.

Exceptional Carpets

We want to announce that we are showing this week a splendid line of 15 different patterns of

FINE WILTON CARPETS.

These are all high art effects with blendings not produced in the more popular carpets, and make the most pleasing of floors. Also

French Wilton Rugs

In the parlor colorings such as soft yellows, roses, greens and French copies of Eastern rugs.

Both of these qualities are noted for their beauty of coloring and closeness of weave, making them the best of the fabrics in their lines for elegant carpets.

We are always glad to show them for a quality carpet.
